- This map displays land management designations in a region near Lake Christopher and the Upper Truckee River. A large area, labeled 12N02, is marked with orange and green diagonal stripes, indicating it is 'Propose Open - Currently Closed'. Surrounding this area are various other land types: solid green areas labeled 12N18, 12N15, and 12N08 are 'Open to OSV Use'; a cross-hatched area at the bottom left is 'Closed to OSV Use'; and a light green area at the bottom is 'NFS Lands on LTBMU'. The map also shows the 'LTBMU Boundary' as a dashed green line, 'State Route' as a thick red line, 'US Hwy' as a red line, 'US Interstate' as a thick red line with a black border, 'Local Roads' as thin grey lines, 'USFS Trail' as a brown line, 'USFS Roads' as a dark brown line, 'Rivers' as blue lines, and 'Lakes' as light blue areas. A legend in the top left corner defines these symbols. A scale bar at the bottom left shows distances from 0 to 0.9 miles, and a compass rose at the bottom right indicates North, South, East, and West.

- 
- This map displays the Hell Hole area, showing various land management zones and infrastructure. The central feature is a large area labeled 'Hell Hole' with a red cross-hatch pattern, indicating it is 'Proposed to be Closed'. Surrounding this are areas marked 'Open to OSV Use' in solid green and 'Closed to OSV Use' in light green with a cross-hatch pattern. The map also shows 'NFS Lands on LTBMU' in a darker green. Infrastructure includes 'State Routes' (red lines), 'US Highways' (thick red lines), 'US Interstates' (thick black lines), 'Local Roads' (thin grey lines), 'USFS Trails' (red lines), 'USFS Roads' (brown lines), 'Rivers' (blue lines), and 'Lakes' (light blue areas). A dashed green line marks the 'LTBMU Boundary'. A legend on the left explains these symbols, and a scale bar and compass rose are at the bottom.
